FORT DE FRANCE, Martinique, May 10.-1.46 P. M.—The earthquakes have ceased, but the volcanic eruptions continue.

Latest advices from Martinique indicate that a small propor tion of the inhabitants were saved.

The French Telegraph and Cable Company, No. 44 Broad street, was advised this afternoon that 450 survivors of the catastrophe were taken to Fort de France by their repair steamer, Puoyer Queentier.

She will return to St. Pierre from Fort de France immediately to rescue any others that may be found.

The message came to New York from Fort de France via South America and Europe. This is the only line which is now in communication with the island.

With the thirty reported as saved by the French warship, Suchet, the total of those saved is new known to be 480.

The danger, however, is not all over. A cable despatch from London says the volcano is still in eruption and that conditions are growing worse.

From Paris comes the news that Mme. Knight, wife of the Martinique Senator, had received this despatch from her husband, now on the island:

"Well. Property safe."

which lies at the foot of the volcano, at least three miles closer to it than St. Pierre, was saved.

The Navy Department has authorized the special despatch boat Potomac, Lieut. B. B. McCormick, now at San Juan, to proceed to St. Pierre at the discretion of the commander.

Sir Robert Llewelyn cables from Kingston that earthquake lamity comes with tenfold force. Roman Catholic-and a theatre, shocks have been frequent and that the inhabitants of the north.
